

April 17, 1970

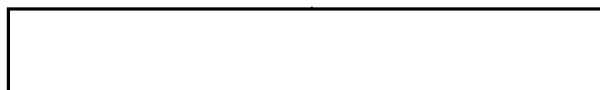

Dear Bob:

Three weeks ago today you made a discovery of considerable significance both to this Center and to the intelligence community at large.

All agree that the key factor in this discovery was your personal persistence at a task that is always difficult and often tedious even under the best of circumstances.

In order to provide you with quick tangible evidence of our appreciation for what you have done, it is my pleasure to tell you that effective 19 April -- two days from now -- you will be promoted from GS-09 to GS-10.

Yours,

Arthur C. Lundahl  
Director
